

ERASMUS

1. day:

On the first day of the trip, we had an orientation meeting with the host organisation after we had eaten our breakfast. We then had some free time, and we explored the neighbourhood. In the afternoon, we went to the city centre, where we were given a tour, and we saw the Duomo di Milano, which was really beautiful. We had free time again and went shopping, afterwards we went back to the accommodation.

2. day:

We visited the school for the first time, and I really enjoyed meeting the people there. The school was also very interesting. Later that day, we visited the Sforzesco Castle and saw many famous pieces. We also had free time in the city centre in the afternoon.

3. day:

On our 2nd day at the school, and also the best one, we got to know more people and more about the school. We made podcasts and saw the school's library. We then went to see the San Siro Stadium, and after that, we went into the Duomo di Milano, which was stunning and probably one of my favourite programs we had.

4. day:

Our last day visiting the school. We gave gifts to the students, and they had also prepared presents for us and snacks. One of the teachers and a few students came with us to the city centre to show us one of the oldest bakeries, Luini, where they made the famous Panzerotti. After eating, we went to Navigli and had some free time there. We went back to the city centre and did some last-minute shopping.

5. day:

We had our final evaluation meeting, then we went to the Museum of Science and Technology Leonardo da Vinci, which had all sorts of interesting places. We then went into a store to buy food for the way home, and then went back to the accommodation.

On the way home, I was a bit disappointed to go back because I really enjoyed my time in Milan. I thought about how fun it was to explore new places, taste new food and meet new people, all whom are different in their own ways.

I really enjoyed getting to know their culture, which was at first foreign to me, and still is, but I feel like I have gotten to know it better, and I hope I can find out more about it and experience it more in the future.

I haven't been to a foreign country for so long that I had forgotten how it felt to explore other cultures, and I think this trip helped me to remember and motivated me for the future.
